

Abstract

Tourism Division Culture, Sports and Tourism Bangkok. It was originally a Bangkok Tourist Bureau Centre and was established with the aimed to provide information to visitors who want to travel in Bangkok. Bangkok was divided into 50 districts, moreover each administrative area owns a lot of great products, accommodation and those things ought to be highly disseminated as the best recommendation to travelers, both Thais and foreigners to know more. This will influence the tourists who are interested in traveling and staying overnight in Bangkok. This is another way to bring the income from the foreign tourist into our country and distribute it widely to the local people as well.

Therefore, there should be a service for tourist which previously has a team to survey on the tour route along the river and the canal at Thonburi area. It was found that when the tourists use the boat service (a long tail boat) the fare going to the destination is too expensive. Thus, I as doing this project, want to solve this problem for the tourists to be taken advantage from adding the boat service fare. Therefore, I try to create this tour guide book along Klong Bang Luang. It is a changing from traveling by boat(a long tail boat) to by bus and walking through the destination. By this way, I hope the fare might be reasonable. So, I decided to arrange a guide book called “Sightseeing on Source of Culture at Klong Bang Luang” in order to solve this problem and help reduce the traveling costs and also protect the tourist, from the grifters.
